REMOTE FIRE

Give yourself the flexibility to get even more creative with your images by using an iPad to fire your DSLR. **onOne Software's DSLR Camera Remote HD** is an iPad app that works with WiFi-enabled computers and is compatible with Canon and Nikon DSLRs. Using your iPad's spacious screen, you can instantly adjust camera settings, fire the shutter, review images, preview through the viewfinder in real time and record video. The browsing function has been improved from the original version to support gestures, so you can zoom and pan by pinching and swiping. Other cool features include an Auto Bracketing mode for expanded exposure brackets and a Burst mode for continuous shooting, and you can save low-res images for emailing and sharing. A computer is required. Estimated Street Price: \$49. Contact: onOne Software, (888) 966-1468, www.ononesoftware.com.

ON-THE-GO BAG

Swing the **Click Elite Impulse Sling** around quickly for those sudden photo opportunities that require you to act fast. The fully padded camera compartment fits a pro-sized DSLR and lens. A tuckaway tripod attachment holds a small tripod, and the media organizer protects memory cards, cable and other items. Additional features include a padded shoulder strap with a quick-release sternum attachment for stability, a stash pocket with a compression cord, and mesh side pockets for water bottles and other extras. Estimated Street Price: \$125. Contact: Click Elite, (888) 532-2545, www.clickelite.com.

DAY BAG

Conceal your camera gear on your next trip by carrying it in the **Tamrac Rally 6**. The foam-padded main compartment is cushioned and holds a DSLR with up to a six-inch lens attached, extra lenses, a flash and accessories. A zippered front pocket and open back pocket provide extra storage for manuals, accessories and other items. A foam-padded adjustable shoulder strap provides more comfort when you're on the go. Estimated Street Price: \$59. Contact: Tamrac, (800) 662-0717, www.tamrac.com.

SHARP GLASS

Shoot handheld with the **Sigma APO 120-300mm F/2.8 EX DG OS HSM** and **APO MACRO 150mm F/2.8 EX DG OS HSM** lenses, which now feature optical stabilization systems. Sigma's OS technology lets you use shutter speeds up to four stops slower than would be possible otherwise. Additionally, these two lenses and the **12-24mm F/4.5-5.6 II DG HSM** are splashproof with protection from water and dust. The 12-24mm includes new glass elements to compensate for color aberration and deliver high image quality. Estimated Street Price: \$3,199 (120-300mm); \$1,099 (150mm); \$949 (12-24mm). Contact: Sigma, (800) 896-6858, www.sigmaphoto.com.
